

Evaluation criteria		Focuses of evaluation 【 】 shows the section in the application form
Objectives / Abstract of the research	1. Does this research properly grasp the current issues and aim to achieve the SDGs?	【Objectives / Abstract】 Does this research set the subjects based on an adequate analysis of the current situations? Does this research clearly show its relevance to the achievement of the SDGs?
	2. Is the objective of the research consistent with the above 1?	【Objectives / Abstract】 Does this research show its importance and necessity for achieving the SDGs?
	3. Is the research appropriate as an All Doshisha Research Model?	【Objectives / Abstract】 Does this research show the distinction of research project of Doshisha University in terms of solving social issues from various angles and contributing to society through the results?
	(Extra Points) Can this research be expected to contribute to the "six targeted areas"?	【Objectives / Abstract】 Can this research be expected to contribute to the "six targeted areas" outlined in the declaration to accelerate the SDGs, adopted by the UN General Assembly?
Outcomes of the research	4. Is the scope of the research contribution clear enough to be appropriate as a university-wide priority?	【Future research plan after completion of this research】 Is this research expected to contribute to the achievement of the SDGs? Can the research be considered as a university-wide priority issue judging from its contribution?
	5. Is dissemination of research results adequately planned?	【Future research plan after completion of this research】 Does the research plan include broad dissemination of the research results as the research progresses?
Plan of the research	6. Are the goals of the research plan appropriate?	【Research Plan】 Does this research set appropriate goals for the objectives and show the expected outcome?
	7. Is the research plan appropriate for achieving the goals?	【Research Plan】 Does the research plan show a reasonable method and timeline for achieving the goals? Does the research plan include specific activities throughout the year?
	8. Is the implementation system appropriate?	【Research member / Research Plan】 Is the research implementation system appropriately set up to implement the research plan? Is the allocation of roles of research members appropriate?
	9. Is the budget plan appropriate?	【Research budget】 Is the budget reasonable and expected to be used efficiently? Are the items essential to the execution of the research listed?
	10. Can further development of the research after this research period be expected?	【Future research plan after completion of this research】 Does this research have a clear vision of after the one-year support of this project, and can we expect further research development?
